# Subject index*

A

Absorption of nitroglycerin, sublingually and orally (Fisch), 418
Accessory pulmonary arteries, extensive, in presence of relatively normal primary pulmonary arteries (Lintermans et al.), 527
Activation pathway, ventricular, spatial ventricular gradient during alterations in (Cosma et al.), 84
African cardiomyopathy, muscle fiber content of heart in (Reid), 352
Age, changes in carotid pulse which occur with (Freis et al.), 757
Alveolar-arterial oxygen tension gradients in cirrhosis of liver, evidence of existing pulmonary arteriovenous shunting (Bashour and Cochran), 734
American Heart Association Council for High Blood Pressure Research, Proceedings, Cleveland, November, 1964 (Vol. XIII) (Hypertension), 575 (B.Rev.)
Negro children, endocardial fibroelastosis in (McLoughlin et al.), 748
Amphetamine-induced dynamic obstruction of left ventricular outflow tract, experimental study (Zalis et al.), 488
Anastomosis, surgical, of pulmonary artery and aorta (Clasen et al.), 542 (CPC)
Anastomotic circulation, arterial, in relation to myocardial infarct and sudden coronary heart death (Baroldi), 826
Anatomy of mitral valve in atrioventricular defects, clinical assessment (Somerville), 701
papillary muscles of left ventricle (Estes et al.), 356
Anemia due to mechanical destruction of erythrocytes by incompetent aortic valvular prostheses (Rubinson et al.), 179
Aneurysm, unusual, of membranous interventricular septum (Saab et al.), 684
Aneurysmal protrusion of posterior leaflet of mitral valve, auscultatory-ECG syndrome (Barlow and Bosman), 166
Angina, effect of griseofulvin on (Paul and Pakrashi), 26
pectoris, therapeutic value of long-acting nitrates in (Fisch), 712
Angiography, value in patients with recent cerebral embolism (Dalal), 136 (Annot.)
Angiotensin, effect on venous smooth muscle (Somlyo and Somlyo), 568 (Annot.)
infusion test in hypertension (Breckenridge), 714 (Annot.)
Announcements, 576, 846
Anomalous left coronary artery arising from pulmonary artery, varying vectorcardiographic patterns in (Puri et al.), 616
origins of pulmonary arteries from pulmonary trunk ("crossed pulmonary arteries"), observation in case with 18 trisomy syndrome (Jue et al.), 807
Anoxia, cerebral (Clasen et al.), 542 (CPC)
Antianginal drugs. Coronary vasodilators, therapeutic role (Fisch), 281
nitrates, long-acting (Fisch), 712
nitroglycerin, clinical use (Fisch), 564
pharmacology, human (Fisch), 417
Antibradykinin agent, pyridinolcarbamate, atherosclerosis-inhibiting effect (Shimamoto et al.), 216
Anticoagulant therapy, failure to alter mortality in patients with acute myocardial infarction (Wasserman et al.), 43
oral, bleeding during (Zweifler et al.), 118
Aorta, calcification, in rheumatoid arthritis (Munasinghe and Rajasuriya), 813
chemical composition in Europeans and Bantu (Meyer et al.), 68
diseases (in German), 845 (B.Rev.)
surgical anastomosis with pulmonary artery (Clasen et al.), 542 (CPC)
Aortic regurgitation in elderly (Bleich et al.), 627
stenosis simulated by mitral insufficiency due to rupture of chordae tendineae (Thomas), 112
valvular, brachial arterial pulse pressure curve in evaluation (Reeve), 421 (Annot.)
valve replacement with Starr-Edwards ball-valve prosthesis, indications and results (Lewis et al.), 549
valvular prostheses, incompetent, mechanical destruction of erythrocytes by, clinical, hemodynamic, and hematologic findings (Rubinson et al.), 179
Aortography in hypertension (Rees), 420 (Annot.)
Arrhythmias, cardiac, diagnosed with aid of jugulocardiogram (Colman), 719 (Annot.)
selected, and atrioventricular node, 574 (B. Rev.)
ventricular, induced by digitalis, effects of pronethalol, beta-adrenergic blocking agent, on (Aroesty and Cohen), 503
of sympathetic origin (Hockman et al.), 695
Arterial anastomotic circulation in relation to myocardial infarct and sudden coronary heart death (Baroldi), 826
brachial, pulse pressure curve in evaluation of valvular aortic stenosis (Reeve), 421 (Annot.)
coronary, perfusion studies, postmortem, significance (Vasko and Sabiston), 775
pressure, pulmonary, mean, prediction of elevation by computer analysis of kinetocardiogram of patients with atrial septal defects (Eddleman et al.), 435
thrombosis, viscosity of blood in patients suffering from, in vitro study without anticoagulants, by means of rotational cone-in-cone trolley viscometer (Dintenfass et al.), 587
Arteries, coronary and cerebral, chemical composition, in Europeans and Bantu (Meyer et al.), 68
pulmonary, accessory, extensive, in presence of relatively normal primary pulmonary arteries (Lintermans et al.), 527

Arteries, pulmonary—Cont'd
anomalous origins from pulmonary trunk ("crossed pulmonary arteries"), observation in case with 18 trisomy syndrome (Jue et al.), 807
renal, multiple, hypertension and (Davies and Sutton), 285 (Annot.)
Arteriolar sclerosis, pulmonary (Richardson et al.), 818 (CPC)
Arteriovenous fistula, pulmonary, and rheumatic cardiac disease (Berard et al.), 390
shunting, pulmonary, as evidenced by alveolar-arterial oxygen tension gradients in cirrhosis of liver (Bashour and Cochran), 734
Artery, carotid, pulse, changes occurring with age and hypertension (Freis et al.), 757
coronary, disease, hypothesis regarding acute events in, based on anatomic observations of vascular supply of left ventricular wall (Estes et al.), 58
left, anomalous, arising from pulmonary artery, varying vectorcardiographic patterns in (Puri et al.), 616
visualization and coronary surgery—A word of caution (Zimmerman and Demany), 725
pulmonary, surgical anastomosis with aorta (Clasen et al.), 542 (CPC)
Arthritis, rheumatoid, calcification of aorta and main vessels in (Munasinghe and Rajasuriya), 813
Artificial pacemakers, electrical interaction between patients and, with applications to electrocardiography (Briller et al.), 656
Aspirin and kidney damage (Scott), 715 (Annot.)
Atherosclerosis, changes in carotid pulse which occur with (Freis et al.), 757
experimental, 721 (B.Rev.)
-inhibiting effect of antibradykinin agent, pyridinolcarbamate (Shimamoto et al.), 216
Atresia, tricuspid, without transposition (Clasen et al.), 542 (CPC)
Atrial fibrillation (Richardson et al.), 818 (CPC)
dilatation, left, marked (Mauck et al.), 265 (CPC)
enlargement, left, leftward shift of terminal P forces in ECG associated with (Gooch et al.), 727
flutter and fibrillation, mechanism (Scherf), 273
septal defect (Richardson et al.), 818 (CPC)
kinetocardiographic findings in patients with, computer analysis (Eddleman et al.), 435
ventral (ostium primum defects), genesis of electrocardiogram of patients with (Durrer et al.), 642
tachycardia, paroxysmal, differentiation from atrial flutter (Scherf), 277
Atrioventricular defects, function and anatomy of mitral valve in, clinical assessment (Somerville), 701
dissociation with block, persistent, and nodal rhythm after cardiac catheterization (Gault et al.), 690
node and selected cardiac arrhythmias, 574 (B.Rev.)
Atrium, recovery of excitability in, temporal dispersion as function of heart rate (Han et al.), 481
A-V conduction, delayed, simultaneous occurrence with ventricular pre-excitation and left bundle branch block, ECG and VCG features (Varriale et al.), 803

B

Bacterial endocarditis in relation to prosthetic heart valves, nature and prevention (Stein et al.), 393
Bacterial endocarditis—Cont'd
subacute, associated with dental procedures, prevention (Gould and Sperber), 134
due to Hemophilus aphrophilus (Dung and Lin), 251
Ballistocardiogram, ultralow-frequency, elimination of respiratory signals from (Winter et al.), 666
Ball-valve prosthesis in heart, bacterial infection in relation to (Stein et al.), 393
Starr-Edwards, aortic valve replacement with, indications and results (Lewis et al.), 549
thrombus formation (Mauck et al.), 265 (CPC)
Base-line artifact in exercise electrocardiogram, common source of error in interpretation (Leinbach and Caceres), 611
Beta-adrenergic blocking agent, pronethalol, effects on digitalis-induced ventricular arrhythmias (Aroesty and Cohen), 503
stimulation, effect on venous smooth muscle (Somlyo and Somlyo), 568 (Annot.)
Bilharzial cor pulmonale, simultaneous right and left ventricular outputs in (Abdel-Fattah et al.), 473
Bing-Gadd catheter deflector, complication associated with incorrect use (Gebel and McIntosh), 137 (Annot.)
Biophysical mechanisms in vascular homeostasis and intravascular thrombosis, 845 (B.Rev.)
Bipolar and unipolar stimulation thresholds of human myocardium with chronically implanted pacemaker electrodes (Dekker et al.), 671
Bladder, urinary, distention, cardiopulmonary effects (Horwitz et al.), 345
Bleeding during oral anticoagulant therapy (Zweifler et al.), 118
Block, atrioventricular dissociation with, persistent, and nodal rhythm after cardiac catheterization (Gault et al.), 690
heart, complete, in association with recurrent ventricular tachycardia; observations with use of single-stimulus implanted myocardial pacemaker and "coupled-pulse generator" (Garcia and Keyes), 533
transvenous pacemaker therapy for control, indications for (Furman et al.), 408
Blood flow, renal, determination by single injection of Hippuran-$I^{131}$ in man, comparison with standard clearance technique (Dabaj et al.), 79
supply of papillary muscles of left ventricle (Estes et al.), 356
viscosity, in normal subjects and in patients suffering from coronary occlusion and arterial thrombosis, in vitro study without anticoagulants, by means of rotational cone-in-cone trolley viscometer (Dintenfass et al.), 587
volume in human calf and thigh, changes with posture and exercise, methods for measuring (Ludbrook), 635
Brachial arterial pulse pressure curve in evaluation of valvular aortic stenosis (Reeve), 421 (Annot.)
Bradykinin antagonist, pyridinolcarbamate, atherosclerosis-inhibiting effects of (Shimamoto et al.), 216
in veins, pharmacologic and clinical observations (Shimamoto et al.), 297
Bronchial arteries, disproportionate development in presence of relatively normal primary pulmonary arteries (Lintermans et al.), 527

Bronchitis, chronic, and emphysema, progress in research. Vol. 2: Pathogenesis of chronic obstructive bronchopulmonary disease, 290 (B.Rev.)
Bundle branch block, left, simultaneous occurrence with ventricular pre-excitation and delayed A-V conduction, ECG and VCG features (Varriale et al.), 803
Burger, Herman Carel. Obituary, 723

C

Calcification of aorta and main vessels in rheumatoid arthritis (Munasinghe and Rajasuriya), 813
Calcium ions, lipid-facilitated transport in cardiac muscle, effect of quinidine sulfate on (Nayler), 363
Calf, human, intravascular pressure and blood volume in, methods for measuring (Ludbrook), 635
Candida albicans infestation (Clasen et al.), 542 (CPC)
Cardiac arrhythmias diagnosed with aid of jugulocardiogram (Colman), 719 (Annot.)
selected, and atrioventricular node, 574(B. Rev.)
arterial anastomoses in relation to myocardial infarct and sudden coronary heart death (Baroldi), 826
catheterization, indications, laboratory facilities, and techniques (Whalen et al.), 124
persistent atrioventricular dissociation with block and nodal rhythm after (Gault et al.), 690
simultaneous recording of radiographic and physiologic data during (Graettinger and Sessions), 422 (Annot.)
catheters, side-hole, problems and complications with use (Morris et al.), 313
disease, rheumatic, coexistent with pulmonary arteriovenous fistula (Berard et al.), 390
dynamics, effect of nitroglycerin on (Fisch), 417
evaluation in normal infants, 575 (B.Rev.)
generator, equivalent, critique (Plonsey), 287 (Annot.)
muscle, lipid-facilitated transport of calcium ions in, effect of quinidine sulfate on (Nayler), 363
necrosis induced by isoproterenol, effect of nicotine on (Wenzel and Stark), 368
pacemakers, implanted, experiences with (McGuire et al.), 283 (Annot.)
pacing and resuscitation, 142 (B.Rev.)
patient, energy and recreations (Passmore), 579
pulsations and thrills, new method for recording with beam of light (Berry), 17

reactivity in rats with spontaneous inherited hypertension and constricted renal artery hypertension (Phelan), 50
Cardiovascular—Cont'd
and renal disease, 1964-1965 yearbook, 289 (B.Rev.)
Carotid pulse, changes occurring with age and hypertension (Freis et al.), 757
Catecholamine and hemodynamic changes during standard cold pressor test (Cuddy et al.), 446
Catheter(s), cardiac, side-hole, problems and complications with use (Morris et al.), 313
conductive element, breakage as complication of long-term transvenous pacemaker therapy (Furman et al.), 414
deflector, Bing-Gadd, complication associated with incorrect use (Gebel and McIntosh), 137 (Annot.)
Dotter-Lukas, modification (Sobol et al.), 501
fiber optics, for continuous in vivo monitoring of oxygen saturation (Harrison et al.), 766
transvenous, pacing, seven-year review (Furman et al.), 408
Catheterization, cardiac, indications, laboratory facilities, and techniques (Whalen et al.), 124
persistent atrioventricular dissociation with block and nodal rhythm after (Gault et al.), 690
simultaneous recording of radiographic and physiologic data during (Graettinger and Sessions), 422 (Annot.)
of left heart, incidence of mitral regurgitation and intramyocardial injection resulting from (Lansing et al.), 495
retrograde, of left side of heart, complications (Christiansen and Wennevold), 604
Cerebral anoxia (Clasen et al.), 542 (CPC)
arteries, chemical composition, in Europeans and Bantu (Meyer et al.), 68
embolism (Dalal), 136 (Annot.)
stimulation, ECG changes resulting from (Hockman et al.), 695
Cerebrovascular disease and prevention of strokes (Marshall), 1
Chemical composition of aorta, coronary and cerebral arteries of Europeans and Bantu (Meyer et al.), 68
Children, heart disease in, 721 (B.Rev.)
Negro, American, endocardial fibroelastosis in (McLoughlin et al.), 748
Chordae tendineae, rupture of, mitral insufficiency due to, simulating aortic stenosis (Thomas), 112
Cine-coronary arteriography, limitations (Zimmerman and Demany), 725
Circulation, collateral, and coronary occlusion, in relation to myocardial infarct and sudden coronary heart death (Baroldi), 826
coronary, effect of nitroglycerin on (Fisch), 417
pharmacology, 722 (B.Rev.)
postmortem perfusion studies, significance (Vasko and Sabiston), 775
of lung, 845 (B.Rev.)
pulmonary, localization of lobeline-sensitive receptors in (Stern et al.), 651
in patients with idiopathic cardiomyopathy (Yu et al.), 330
Cirrhosis of liver, alveolar-arterial oxygen tension gradients in, evidence of existing pulmonary arteriovenous shunting (Bashour and Cochran), 734
Clinical findings in mechanical destruction of erythrocytes by incompetent aortic valvular prostheses (Rubinson et al.), 179
laboratory procedures and data, practical manual and handbook, 141 (B.Rev.)

Clinical—Cont'd
observations on pyridinolcarbamate, bradykinin antagonist in veins (Shimamoto et al.), 297
pathologic conference (Clasen et al.), 542
(Mauck et al.), 265
(Richardson et al.), 818
Clotting time of blood determined by rotational cone-in-cone trolley viscometer in normal subjects and in patients suffering from coronary occlusion and arterial thrombosis, in vitro study without anticoagulants (Dintenfass et al.), 587
Cold pressor test, standard, hemodynamic and catecholamine changes during (Cuddy et al.), 446
Collateral circulation and coronary occlusion in relation to myocardial infarct and sudden coronary heart death (Baroldi), 826
Complete heart block in association with recurrent ventricular tachycardia; observations with use of single-stimulus implanted myocardial pacemaker and "coupled-pulse generator" (Garcia and Keyes), 533
transvenous pacemaker therapy for control, indications for (Furman et al.), 408
Compliances, pulmonary vascular (Kira and Rodbard), 371
Computer analysis of kinetocardiographic findings in patients with atrial septal defects (Eddleman et al.), 435
Conduction, A-V, delayed, simultaneous occurrence with ventricular pre-excitation and left bundle branch block, ECG and VCG features (Varriale et al.), 803
Congenital heart disease (Clasen et al.), 542 (CPC)
(Richardson et al.), 818 (CPC)
Congestive heart failure (Richardson et al.), 818 (CPC); 722 (B.Rev.)
effect of upright posture on right ventricular volumes in patients with (Rapaport et al.), 146
Cor pulmonale, bilharzial, simultaneous right and left ventricular outputs in (Abdel-Fattah et al.), 473
Coronary arterial perfusion studies, postmortem, significance (Vasko and Sabiston), 775
arteries, chemical composition, in Europeans and Bantu (Meyer et al.), 68
artery, anomalous, left, arising from pulmonary artery, varying vectorcardiographic patterns in (Puri et al.), 616
disease, hypothesis regarding acute events in, based on anatomic observations of vascular supply of left ventricular wall (Estes et al.), 58
visualization and coronary surgery—A word of caution (Zimmerman and Demany), 725
circulation, effect of nitroglycerin on (Fisch), 417
pharmacology, 722 (B.Rev.)
heart death, sudden, and myocardial infarct, in relation to coronary occlusion and collateral circulation (Baroldi), 826
insufficiency, transient abnormal Q waves during (Rubin et al.), 254
occlusion, experimental, potassium and (Harris), 797
viscosity of blood in patients suffering from, in vitro study without anticoagulants, by means of rotational cone-in-cone trolley viscometer (Dintenfass et al.), 587
vasodilators, therapeutic role (Fisch), 281
Coupled-pulse generator, use in patient with recurrent ventricular tachycardia associated with complete heart block (Garcia and Keyes), 533
Coxsackie virus $B_4$ valvulitis, experimental, in cynomolgus monkeys (DePasquale et al.), 678
Crossed pulmonary arteries (anomalous origins of pulmonary arteries from pulmonary trunk), observation in case with 18 trisomy syndrome (Jue et al.), 807

D

Death, heart, coronary, sudden, and myocardial infarct, in relation to coronary occlusion and collateral circulation (Baroldi), 826
sudden, and oxygen-conserving reflex (Wolf), 840
Dental procedures, prevention of subacute bacterial endocarditis associated with (Gould and Sperber), 134
Diencephalon, electrical stimulation, influence on cardiac rhythm (Hockman et al.), 695
Dietary production of myocardial fibrosis in rat (Reid and Berjak), 240
Differential diagnosis of cardiovascular disease, 289 (B.Rev.)
Digitalis-induced ventricular arrhythmias, effects of pronethalol, beta-adrenergic blocking agent, on (Aroesty and Cohen), 503
Digitalization, acute, effects in patients with idiopathic cardiomyopathy (Yu et al.), 330
Dilatation, aneurysmal, of posterior leaflet of mitral valve, auscultatory-ECG syndrome (Barlow and Bosman), 166
atrial, left, marked (Mauck et al.), 265 (CPC)
Dispersion, temporal, of recovery of excitability in atrium and ventricle as function of heart rate (Han et al.), 481
Dissociation, atrioventricular, with block, persistent, and nodal rhythm after cardiac catheterization (Gault et al.), 690
Diuretic therapy, 142 (B.Rev.)
Dotter-Lukas catheter, modification (Sobol et al.), 501
Drugs, antianginal. Coronary vasodilators, therapeutic role (Fisch), 281
Nitrates, long-acting (Fisch), 712
Nitroglycerin, clinical use (Fisch), 564
pharmacology, human (Fisch), 417

E

Ectopic excitation after coronary occlusion, relationship of potassium to (Harris), 797
Elderly, aortic regurgitation in (Bleich et al.), 627
Electrical interaction between artificial pacemakers and patients, with applications to electrocardiography (Briller et al.), 656
pacing, transvenous, of heart (Yuceoglu et al.), 5
Electrocardiogram, effect of nitroglycerin on (Fisch), 418
exercise, averaged pattern of P wave in, method of recording (Irisawa and Seyama), 467
method for dual-track, magnetic-tape recording and quantitative analysis by means of computer of average transients (Bruce et al.), 455
notching, high-frequency and low-frequency, relative significance (Langner and Lauer), 34
in tachycardia, common errors of interpretation (Leinbach and Caceres), 611
of patients with ostium primum defects (ventral atrial septal defects), genesis (Durrer et al.), 642
Electrocardiographic changes in gastric freezing (Escudero et al.), 29
resulting from cerebral stimulation (Hockman et al.), 695
"intermediate phase" of acute myocardial infarction (Solomon and Shapiro), 582

Electrocardiographic—Cont'd
limb leads, logical display (Uhley and Rosenblum), 571 (Annot.)
Electrocardiographs, low-frequency response, frequent source of recording errors (Berson and Pipberger), 779
Electrocardiography, electrical interaction between artificial pacemakers and patients, applications to (Briller et al.), 656
exercise, multiple-lead, new system (Mason and Likar), 196
high-fidelity; effects of induced localized myocardial injury in dog (Langner et al.), 790
pediatric, 141 (B.Rev.)
reflections on (Wolferth), 431
and vectorcardiography, instrumentation, fundamentals, and clinical applications, 141 (B.Rev.)

Shunting, arteriovenous, pulmonary, as evidenced by alveolar-arterial oxygen tension gradients in cirrhosis of liver (Bashour and Cochran), 734
Side-hole cardiac catheters, problems and complications with use (Morris et al.), 318
Single-stimulus implanted myocardial pacemaker, use in patient with recurrent ventricular tachycardia associated with complete heart block (Garcia and Keyes), 533
Slurring, high-frequency and low-frequency, in electrocardiogram, relative significance (Langner and Lauer), 34
Smooth muscle, venous, effect of angiotensin and beta-adrenergic stimulation on (Somlyo and Somlyo), 568 (Annot.)
Sounds, heart, in pregnancy (Cutforth and MacDonald), 741
second, in pulmonary embolism and pulmonary hypertension (Cobbs et al.), 843
Spatial ventricular gradient during alterations in ventricular activation pathway (Cosma et al.), 84
ST segment and QRS responses to exercise, quantitation of (Bruce et al.), 455
Starr-Edwards ball-valve prosthesis, aortic valve replacement with, indications and results (Lewis et al.), 549
Stenosis, aortic, simulated by mitral insufficiency due to rupture of chordae tendineae (Thomas), 112
valvular, brachial arterial pulse pressure curve in evaluation (Reeve), 421 (Annot.)
mitral, exercise phonocardiogram in evaluation (Decker et al.), 509
severe (Mauck et al.), 265 (CPC)
Stimulation, cerebral, ECG changes resulting from (Hockman et al.), 695
thresholds, unipolar and bipolar, of human myocardium with chronically implanted pacemaker electrodes (Dekker et al.), 671
Stokes-Adams syndrome treated by transvenous electrical pacing of heart (Yuceoglu et al.), 5
Strokes, prevention (Marshall), 1
Subacute bacterial endocarditis associated with dental procedures, prevention (Gould and Sperber), 134
due to Hemophilus aphrophilus (Dung and Lin), 251

Sudden death and oxygen-conserving reflex (Wolf), 840 (Annot.)
Suprasternal puncture of left side of heart, complications (Christiansen and Wennevold), 601
Surgery, coronary, and coronary artery visualization —A word of caution (Zimmerman and Demany), 725
vascular, 289 (B.Rev.)
Sympathetic origin of ventricular arrhythmias (Hockman et al.), 695

T

Tachycardia, atrial, paroxysmal, differentiation from atrial flutter (Scherf), 277
electrocardiogram in, common errors of interpretation (Leinbach and Caceres), 611
ventricular, recurrent, associated with complete heart block, observations with use of single-stimulus implanted myocardial pacemaker and "coupled-pulse generator" (Garcia and Keyes), 533
Temporal dispersion of recovery of excitability in atrium and ventricle as function of heart rate (Han et al.), 481
Terminal P forces, leftward shift in ECG, associated with left atrial enlargement (Gooch et al.), 727
Tension gradients, oxygen, alveolar-arterial, in cirrhosis of liver, evidence of existing pulmonary arteriovenous shunting (Bashour and Cochran), 734
Tetralogy of Fallot, total correction in 54-year-old patient (Friesinger and Bahnson), 107
Therapeutics, pharmacologic basis, 289 (B.Rev.)
Thigh, human, intravascular pressure and blood volume in, methods for measuring (Ludbrook), 635
Thoracic compliance, effects of distention of urinary bladder on (Horwitz et al.), 345
Thrills, cardiac, new method for recording with beam of light (Berry), 17
Thromboangiitis obliterans, simultaneous quadrilateral acute ulcerations in (Ball and Wright), 260
Thrombosis, arterial, viscosity of blood in patients suffering from, in vitro study without anticoagulants, by means of rotational cone-in-cone trolley viscometer (Dintenfass et al.), 587
intravascular, biophysical mechanisms in, 845 (B.Rev.)
platelet, in experimental renal papillary necrosis (Wizgird et al.), 839 (Annot.)
Thrombus, ball-valve, formation (Mauck et al.), 265 (CPC)
Tilting, upright, effect on right ventricular volumes in patients with and without heart failure (Rapaport et al.), 146
Toxicity of monoamine oxidase inhibitors having antianginal efficacy (Fisch), 837
of nitroglycerin, side effects, tolerance and (Fisch), 418
Transseptal left heart catheterization, complications (Christiansen and Wennevold), 605
Transthoracic left ventricular puncture, complications (Christiansen and Wennevold), 601
Transvenous electrical pacing of heart (Yuceoglu et al.), 5
pacing, seven-year review (Furman et al.), 408
Traumatic rupture of papillary muscle in child (Gomez and Jackson), 522
Traumatization of erythrocytes by regurgitant blood flow around incompetent aortic valve prostheses (Rubinson et al.), 179
Tricuspid atresia without transposition (Clasen et al.), 542 (CPC)
Trisomy, 18, syndrome, observations in case of anomalous origins of pulmonary arteries from pulmonary trunk ("crossed pulmonary arteries") (Jue et al.), 807
Trolnitrate phosphate, clinical use in angina pectoris (Fisch), 713

U

Ulcer, peptic, treated by gastric freezing, ECG changes in patients with (Escudero et al.), 29
Ulcerations, quadrilateral, acute, simultaneous, in case of thromboangiitis obliterans (Ball and Wright), 260
Ultralow-frequency ballistocardiogram, elimination of respiratory signals from (Winter et al.), 666
Unipolar and bipolar stimulation thresholds of human myocardium with chronically implanted pacemaker electrodes (Dekker et al.), 671
Urinary bladder, distention, cardiopulmonary effects (Horwitz et al.), 345

V

Valve, aortic, replacement with Starr-Edwards ball-valve prosthesis, indications and results (Lewis et al.), 549
mitral, cleft (Richardson et al.), 818 (CPC)
function and anatomy in atrioventricular defects, clinical assessment (Somerville), 701
posterior leaflet, aneurysmal protrusion, auscultatory-ECG syndrome (Barlow and Bosman), 166
prosthetic, endocarditis, nature and prevention (Stein et al.), 393
Valvular aortic insufficiency in elderly, incidence and etiology (Bleich et al.), 627
stenosis, brachial arterial pulse pressure curve in evaluation (Reeve), 421 (Annot.)
prostheses, aortic, incompetent, mechanical destruction of erythrocytes by, clinical, hemodynamic, and hematologic findings (Rubinson et al.), 179
Valvulitis, experimental, induced by Coxsackie virus $B_4$ in cynomolgus monkeys (DePasquale et al.), 678
Vascular and cardiac disorders, differential diagnosis by new physiological techniques, 430 (B.Rev.)
disease, changes in carotid pulse which occur with (Freis et al.), 757
pulmonary, occlusive, associated with hemoglobin SC disease (Durant and Cortes), 100
effects of nitroglycerin (Fisch), 417
homeostasis, biophysical mechanisms in, 845 (B.Rev.)
pulmonary compliances and filtrations (Kira and Rodbard), 371
supply of left ventricular wall, anatomic observations, and hypothesis regarding acute events in coronary artery disease (Estes et al.), 58
surgery, 289 (B.Rev.)
Vasodilators, coronary, therapeutic role (Fisch), 281
Vectorcardiographic patterns, varying, in anomalous left coronary artery arising from pulmonary artery (Puri et al.), 616
Vectorcardiography and electrocardiography: Instrumentation, fundamentals, and clinical applications, 141 (B.Rev.)

Veins, pulmonary, pumping action (Braun), 286 (Annot.)
pyridinolcarbamate, bradykinin antagonist in, clinical and pharmacologic observations (Shimamoto et al.), 297
Venous smooth muscle, effect of angiotensin and beta-adrenergic stimulation on (Somlyo and Somlyo), 568 (Annot.)
Ventricle, left, papillary muscles of, anatomy and blood supply (Estes et al.), 356
recovery of excitability in, temporal dispersion as function of heart rate (Han et al.), 481
Ventricular activation pathway, spatial ventricular gradient during alterations in (Cosma et al.), 84
arrhythmias, digitalis-induced, effects of pronethalol, beta-adrenergic blocking agent, on (Aroesty and Cohen), 503
of sympathetic origin (Hockman et al.), 695
flutter and fibrillation (Scherf), 278
function, left, in patients with idiopathic cardiomyopathy (Yu et al.), 330
gradient, spatial, during alterations in ventricular activation pathway (Cosma et al.), 84
outflow, left, obstruction, dynamic, experimentally induced (Zalis et al.), 488
outputs, right and left, simultaneous, in bilharzial cor pulmonale (Adbel-Fattah et al.), 473
pre-excitation, simultaneous occurrence with left bundle branch block and delayed A-V conduction, ECG and VCG features (Varriale et al.), 803
puncture, left, suprasternal and/or transthoracic, complications (Christiansen and Wennevold), 601
repolarization, abnormal, in Macaca mulatta (Malinow and Hackel), 140 (Annot.)
tachycardia, recurrent, associated with complete heart block, observations with use of single-stimulus implanted myocardial pacemaker and "coupled-pulse generator" (Garcia and Keyes), 533
Ventricular—Cont'd
volume, left, in heart disease, effects of supine exercise on (Bristow et al.), 319
right, in patients with and without heart failure, effect of upright posture on (Rapaport et al.), 146
wall, left, vascular supply, anatomic observations, and hypothesis regarding acute events in coronary artery disease (Estes et al.), 58
Vessels, main, aorta and, calcification in rheumatoid arthritis (Munasinghe and Rajasuriya), 813
Vibrio fetus endocarditis (Loeb et al.), 381
Virus, Coxsackie $B_4$, valvulitis, experimental, in cynomolgus monkeys (DePasquale et al.), 678
Viscosity of blood in normal subjects and in patients suffering from coronary occlusion and arterial thrombosis, in vitro study without anticoagulants, by means of rotational cone-in-cone trolley viscometer (Dintenfass et al.), 587
Volume, blood, in human calf and thigh, changes with posture and exercise, methods for measuring (Ludbrook), 635
ventricular, left, in heart disease, effects of supine exercise on (Bristow et al.), 319
Volume-pressure relationships in lung, effects of distention of urinary bladder on (Horwitz et al.), 345

W

Wave, 'h', of jugular phlebogram, experimental examination of factors responsible for (Mackay and Walker), 228
P, configuration during mild exercise (Irisawa and Seyama), 467
Q, abnormal, transient, during coronary insufficiency (Rubin et al.), 254
summation in exercise electrocardiogram, common source of error in interpretation (Leinbach and Caceres), 611

Rupture, ventricular, after myocardial infarction, electrocardiographic findings at time of (Morton et al.), 817

S

Schizotrypanum cruzi, chronic human and experimental myocarditis due to, comparative study of pathologic findings (Anselmi et al.), 469
Scleroderma, systemic, with complete heart block, report of case with comprehensive study of conduction system (Lev et al.), 13
Second sound in pulmonary area, key to auscultation of heart (Leatham), 293
Sensory stress factors in myocardial pathology, neurogenic and hormonal mechanisms in pathogenesis, therapy, and prevention (Raab), 538
Septum, interventricular, dissection by congenital aortic sinus aneurysms (Onat et al.), 158
ventricular, aneurysm of, with outflow obstruction of venous ventricle in corrected transposition of great vessels (Summerall et al.), 525
Sequential atrioventricular pacing, hemodynamic sequelae, in cardiac patients (Samet et al.), 725
Shock after acute myocardial infarction (Cronin), 282 (Annot.)
annotated bibliography, 1962-1964, 716 (B.Rev.)
after cardiac surgery or myocardial infarction, use of dopamine in treatment (Goldberg et al.), 568 (Annot.)
Sinoatrial node, effect of digitalis on (Lyon and DeGraff), 707
rate, acceleration leading to complete heart block, unusual mechanism for Adams-Stokes syndrome (McHenry and Knoebel), 681
Sinus, aortic, aneurysms, congenital, with dissection of interventricular septum (Onat et al.), 158
tachycardia complicating and outlasting pericarditis (Dressler), 422 (Annot.)
Skin disease, erythrodermic, cardiac output in (Voigt et al.), 615
Sodium bisulfite, optical behavior of indocyanine green dye in presence of (Sutterer et al.), 345
reabsorption, by kidney, mechanisms (Wolf et al.), 692
Sound, second, in pulmonary area, key to auscultation of heart (Leatham), 293
Spectrophotometric studies of indocyanine green dye in blood and aqueous solution (Sutterer et al.), 345
Sponge electrodes, vectorcardiogram recorded with (Witham), 730
ST155, new hypotensive drug, effect on systemic circulation (Nayler et al.), 764
Standstill, ventricular, transient, caused by prolonged depressing effect of premature supraventricular beats (Dressler), 25
Stenosis, congenital, of individual pulmonary veins without intracardiac anomalies (Moller et al.), 530 (CPC)
subaortic, hypertrophic, idiopathic, primitive bulbus cordis and, in man (Rosenblum et al.), 713 (Annot.)
Stenotic vascular lesions, blood flow in, dynamics (Rodbard), 698
Stress factors, sensory, in myocardial pathology, neurogenic and hormonal mechanisms in pathogenesis, therapy, and prevention (Raab), 538
Stroke, lightning, electrocardiographic changes in (Burda), 521
volume, computed, in man, evaluation (Jones et al.), 746
Strokes, National Congress on, proceedings, 290 (B.Rev.)
Sulfadiazine prophylaxis against rheumatic fever, oral flora in children receiving (Wenger et al.), 420 (Annot.)
Superior intraventricular block, cause of left axis deviation (Pryor and Blount), 395
Supraventricular beats, premature, prolonged depressing effect of, mechanism causing transient ventricular standstill (Dressler), 25
Surdo-cardiac syndrome (Jervell et al.), 582
Surgery, cardiac, hypotension and shock after, use of dopamine in treatment (Goldberg et al.), 568 (Annot.)
Sympathomimetic amines, cardiovascular responses to, in acutely pancreatectomized dogs (Goldberg and Rosenblum), 482
Syncopal attacks and Q-T prolongation in electrocardiogram, with congenital deafness (surdo-cardiac syndrome) (Jervell et al.), 582
Synergistic action of propranolol with quinidine (Stern), 569 (Annot.)
Systemic circulation, effect of ST155, new hypotensive drug, on (Nayler et al.), 764
scleroderma with complete heart block, report of case with comprehensive study of conduction system (Lev et al.), 13
Systemic-to-coronary artery anastomosis, coronary inflow after, in dogs (Schuldt and Krause), 359
Systole, atrial, timing of, relationship to useful work of left ventricle (Snell et al.), 653
Systolic heartbeat, late, of pericardial effusion (Kay et al.), 7
murmurs, clicks, and whoops, late, arising from mitral valve, ventricular septal intracardiac phonocardiographic analysis (Leon et al.), 325

T

Tachycardia produced by atrial pacing and atropine, hemodynamic effects, comparison (Kosowsky et al.), 594
sinus, complicating and outlasting pericarditis (Dressler), 422 (Annot.)

Tamponade, cardiac, after transmyocardial extravasation of contrast material (Nadimi et al.), 369
Technically developing regions, research equipment for use in (Caddell), 844 (Annot.)
Textbooks, decay (Dudley), 573 (Annot.)
Therapy for myocardial pathology induced by emotional and sensory stress factors (Raab), 553
Thromboemboli in pulmonary vasculature, abnormalities due to, angiographic study (Dalen et al.), 509
Thrombosis, endotoxin-initiated, in rat, in relation to fibrinolysis, coagulation, and lipemia, prevention by glucocorticoids (Renaud et al.), 797
Transmyocardial extravasation of contrast material, cardiac tamponade after (Nadimi et al.), 369
Transplantation, cardiac, without complete cardiac denervation, role of afferent receptors in (Lower), 841 (Annot.)
Transposition of great vessels, complete, preoperative and postoperative electrocardiogram in (Khoury et al.), 199
corrected, with aneurysm of ventricular septum obstructing outflow tract of venous ventricle (Summerall et al.), 525
Transseptal intracardiac phonocardiographic analysis of late systolic murmurs, clicks, and whoops arising from mitral valve (Leon et al.), 325
Transvenous pacing of phrenic nerves (Escher et al.), 283 (Annot.)
Trauma, nonpenetrating, atrioventricular and intraventricular conduction defects after (Dolara and Pozzi), 138 (Annot.)
Tumors, pheochrome, unusual features (Atuk et al.), 607

V

Vagal action of digitalis (Lyon and DeGraff), 707
Valsalva maneuver, aortic flow and other hemodynamic responses to, in dog (Cohen), 784
Valve, mitral, origin of late systolic murmurs, clicks, and whoops from, transseptal intracardiac phonocardiographic analysis (Leon et al.), 325
pulmonary, atresia, with double-outlet right ventricle, report on patient surviving to age 25 (Rogoff and Anthony), 259
Valvotomy, mitral, prognosis of atrial fibrillation after (Halmos), 30
Valvular area, pulmonary, simplified method for calculating (Moller and Adams), 463
heart disease in monkey (Macaca mulatta) (Roberts and Innes), 206
insufficiency, cardiac, reports on; German Society of Cardiovascular Research, 1965 meeting (in German), 434 (B.Rev.)

resistance, peripheral, effect of morphine on (Henney et al.), 242
Vascular—Cont'd
system, effects of emotional and sensory stress factors on (Raab), 551
Vasculature, pulmonary, thromboemboli in, abnormalities due to, angiographic study (Dalen et al.), 509
Vasopressin, differential actions on coronary inflow vessels (Altura), 709 (Annot.)
VCG lead system, McFee and Parungao, practical remarks on (Duchosal and Pasche), 287 (Annot.)
Vectorcardiogram, quantitation (Witham), 284 (Annot.)
recorded with sponge electrodes (Witham), 730
Veins, pulmonary, stenosis, congenital, without intracardiac anomalies (Moller et al.), 530 (CPC)
Venous circulation, effect of digitalis on (Lyon and DeGraff), 566
ventricle, outflow tract of, obstruction by aneurysm of ventricular septum, in corrected transposition of great vessels (Summerall et al.), 525
Ventricle, basic rate in, incidence of ectopic beats as function of (Han et al.), 632
left, useful work of, relationship to timing of atrial systole (Snell et al.), 653
right, double-outlet, with pulmonary valve atresia, report on patient surviving to age 25 (Rogoff and Anthony), 259
venous, outflow tract of, obstruction by aneurysm of ventricular septum, in corrected transposition of great vessels (Summerall et al.), 525
Ventricular conduction system, left, anatomy (Pryor and Blount), 391
defibrillation, effect of quinidine on electrical energy required for (Woolfolk et al.), 659
fibrillation after coronary occlusion, oxygen differential in etiology, present status of concept (Badeer), 238
electrical, threshold with and without anesthesia (McIntosh et al.), 419 (Annot.)
myocardium, effect of digitalis on (Lyon and DeGraff), 706
pacing, hemodynamic sequelae, in cardiac patients (Samet et al.), 725
rupture after myocardial infarction, electrocardiographic findings at time of (Morton et al.), 817
septum, aneurysm of, with outflow obstruction of venous ventricle in corrected transposition of great vessels (Summerall et al.), 525
standstill, transient, caused by prolonged depressing effect of premature supraventricular beats (Dressler), 25
Vessels, great, transposition, complete, preoperative and postoperative electrocardiogram in (Khoury et al.), 199
corrected, with aneurysm of ventricular septum obstructing outflow tract of venous ventricle (Summerall et al.), 525
inflow, coronary, differential actions of polypeptides and other drugs on (Altura), 709 (Annot.)
resistance and capacitance, of peripheral circulation, effects of morphine on (Henney et al.), 242
Viscosity of whole blood and plasma in early hypertensive disease (Tibblin et al.), 165

Volume, plasma, in early hypertensive disease (Tiblin et al.), 165
stroke, computed, in man, evaluation (Jones et al.), 746

W

Wave, P-, inversion in Lead I, occurrence and mechanism in right atrial overloading (Mirowski and Vure), 102
Whoops, systolic, late, arising from mitral valve, transseptal intracardiac phonocardiographic analysis (Leon et al.), 325
Wolferth, Charles C. Obituary, 144
Work, useful, of left ventricle, relationship to timing of atrial systole (Snell et al.), 653
